

“ Good **ideas** are a dime a dozen, **execution** makes all the **difference**. Let us help you reach your **goal**.

IT Consulting | Business Process Outsourcing | Networking | Software | Staffing

## Our Mission

Serigor is all about helping you make the right decision about the right technical support for the right fineness in management utilities at any time in a firm's standing. We believe that knowledge exists so as to be shared.

We want to create opportunities that will ensure individual as well as total growth of a firm, by devising the use of their resources to the fullest. We hope to empower today's and future leaders with technical cognizance to make them sound decision makers.

## About Us

**SeRigor - Stability + Execution  
+ Rigor**

Serigor symbolizes the qualities that empower us to aim for nothing less than the best. At SeRigor, we imbibe in us these fundamentals that ultimately drive us to process superlative solutions incorporating the perfect blend of up-to-the-minute information and latest system technologies that outputs as the perfect equation of success. Serigor is a niche corporation that specializes in information technology and business

management consultancy that aims at promulgating the best system solutions to upgrade your management functions using the best that technology has to offer today. We believe in the richness of technology and astuteness of creative human sensibility, which when coined together, results in an inspirational business structure that can develop, maintain and advance with each passing year in any economic situation. Our primal services range from industry specific IT based management consulting, database and software development, business process outsourcing, staffing, strategy planning, and business resource analysis. They are designed to analyze, predict and create new options for an improved coherent managerial function that can help objectively tabulate and study various areas

of business management in a simplified manner.

We focus on not just changing the obsolete, but determining how to channelize your firms

resources, optimize leveraging tools and technology for evaluation and improvement, integrating your firm's systems into a connected network so as to ensure consistency in functions; developing IT specific evalua-

tion tools for staffing and other secondary resources and much more.

The scope for technical excellence is unlimited for any firm; it is how you optimize it for that desired excellence that matters.

At Serigor, we understand this and with our industry expertise,

## Our promise: when the going gets tough, we get going.

you can be assured of quality and excellence in both technical setup and optimization of that technical support judiciously.

After all, a well connected system is an efficient system.

## Our Services

### Specialized IT Consulting

IT is not merely a cost but a critical contributor to the business. Our professionals are experienced with bold, value-creating approaches to IT, bringing boardroom-relevant criteria to IT investments and helping high-performance businesses to “think bigger” about IT’s ability to improve operating results.

### Business Process Outsourcing

To meet your operational and strategic objectives, Serigor offers a range of flexible outsourcing solutions to optimize service levels, reduce and improve cost structures, reduce corporate carbon footprints and strengthen competitive positioning.

### Staff Augmentation

Our skilled application professionals can help you manage fluctuating skill needs, skills gaps and changing staffing needs to meet your aggressive project timelines.

### PMO Consulting

Serigor Consulting Service offers PMO consulting services that help your business, small or global, cohesively manage various facets including governance processes, optimizing resource utilization and improving project performance.

### Database Development Modules

Our services include: database design, custom database development, database cataloging models and database development models.

### Software Solutions

Our services include: software development software implementation, consultation and custom made software design modules.

## Our Approach

Serigor believes that great success starts off with the earliest phase which is defining the engagement. The higher the synchronization of goals and objectives of the management, more desirable is the end result.

Our strategy to consulting engagements is highly distinctive from the strategy of our contemporaries, and offers our clients with a unique set of significant benefits

Starting with a preliminary understanding of the organization need, we then work with our clientele to develop and deliver efficient solutions, striking just the right balance between utilizing what they have and delivering what they need. Our solution experts are specialists in the technologies and businesses they reinforce.

We help our clients in becoming a powerful organization through strengthening their strategy, control, business processes, met-

rics, technology and organization structure essential to deliver and manage efficient, top quality products and services. This dissipates political rigidity and enables commitment through the experience of success. We support our clients to discover

# A winning strategy takes more than just having a good idea. We'll help you turn your good idea into something tangible that produces results.

the answer rather revealing them one. We assist them with practical and structured solutions that have proven successful in numerous similar engagements. Our belief is in clear goals, targets & deliverables rather claiming grand mission statements. We regularly utilize simple tools & frameworks to avoid complicated un-recoverable procedures and we advance working together with clients instead of just doing it for them, We teach the most relevant methods and procedures to the client team individuals to perform the majority of the

work and stimulate the convergence of the company's technology with its business.

We understand the intangible nature of our work and the trust our clients place in us. Consequently, we comply with a strict code of

professional conduct and client accountability system. This ensures that we put in writing what we will do, when and how we will do it, what it costs and how

you can evaluate the impact of our consulting intervention.

## Key Elements to our approach

- ▣ Precise Market Research.
- ▣ Domain Specific Engagement Models.
- ▣ Direct Interaction with Consumers.
- ▣ Client Friendly Market Intelligence Tools.
- ▣ Real-world experts & advisors.

## Differentiators

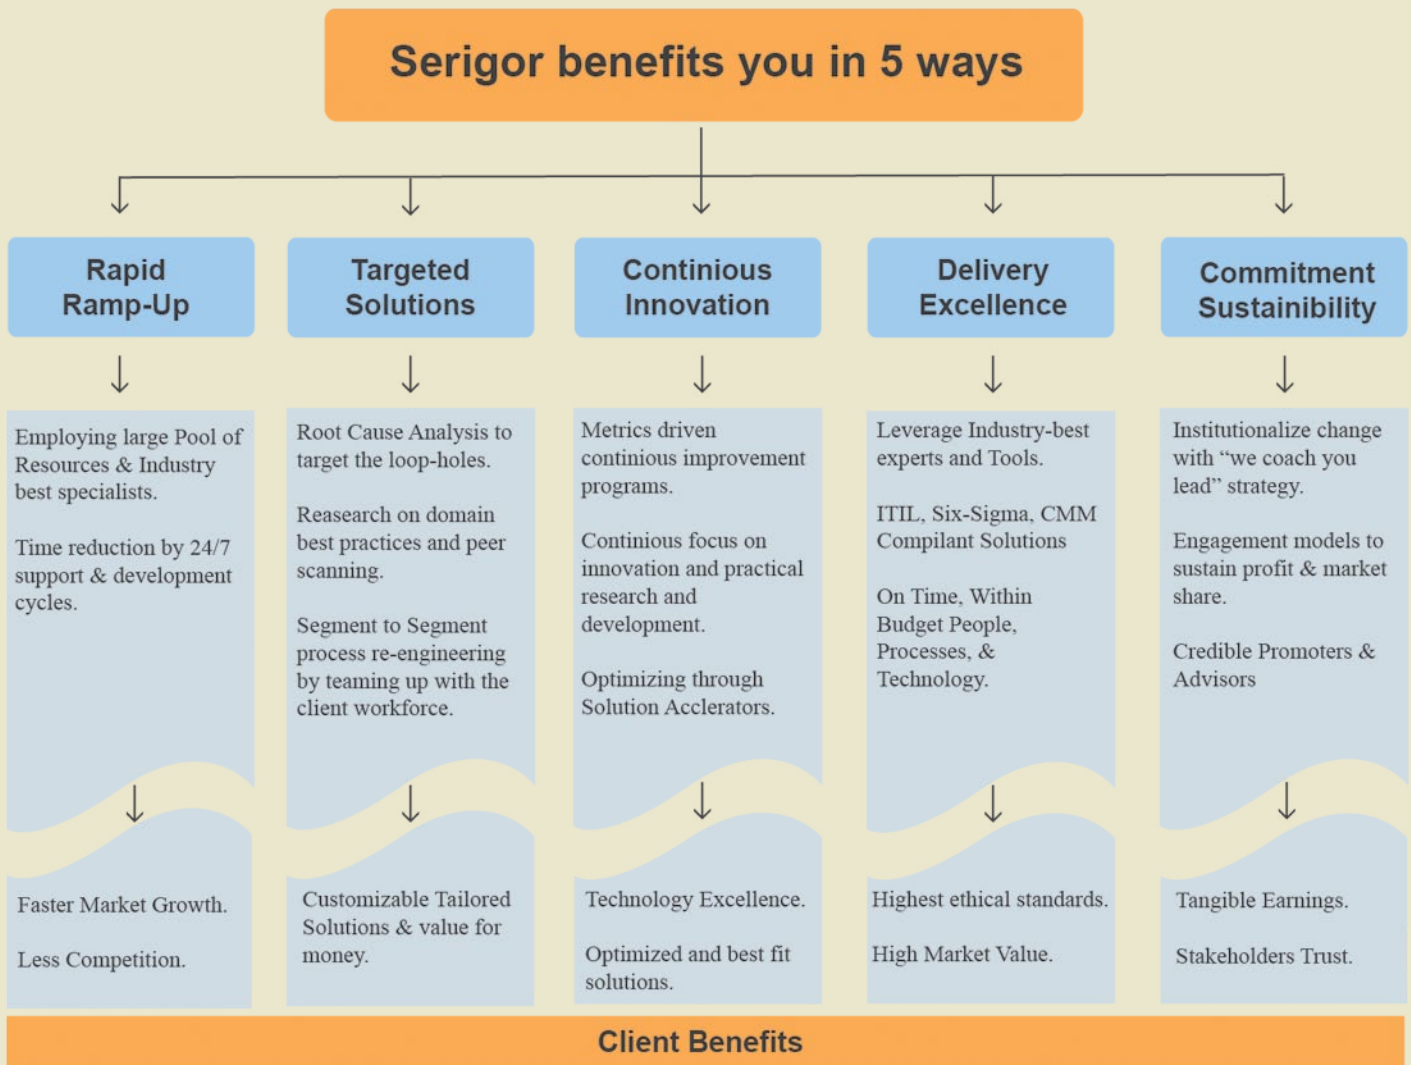

Our value proposition to clients, is a solution centric and well defined approach for service delivery. An experienced technology team and the thought leadership are our strengths which help us service our clients efficiently and benefit them by bringing value to their businesses. Our vision 'Ideas Energized' is a thought and a

belief that technology is a lot more than just IT enablement of business operations. It is a platform to implement ideas which transform businesses around key factors and helps in the growth of an organization.

In addition, our service offerings combined with an effective organization structure, minimizes the efficiency loss at various stages and adds value to our clients and

employees. We Endeavour to adopt new generation technologies and processes in our unique delivery model. Serigor has successfully carved a niche for itself by consolidating its approach to IT and ITES (IT enabled services) through sustainable value addition to organizations.

We go to extraordinary lengths to support the organizations to bring about the best in industry.

## What you can expect from us?

With our global talent pool and wide range of expertise our team is dedicated in architecting future focused, sustainable, well thought solutions for you, To all what we do we bring authentic understanding & insight. We bring corporate social responsibilities into action by clear and credible ethical decisions and ensuring a win-win situation to all our Workers, Businesses, Consumers & Investors.

Our Principal/Owner level management are directly involved with our Client to guide the core team and subject matter experts. We let you focus on you core competencies by on time project deliveries which continuously raises the bar in attaining high ROI.

We provide you customized services that are ethical & right for your business. Our in-house professionals are available 24/7 to talk with you, answer your queries, or discuss a new idea you would like to implement.

## The Bottom Line

Most companies are continually looking for ways to cut costs and run more efficiently. Regardless of the industry, the bottom line is profits. With innovative solutions and an affinity for ethics, Serigor Consulting provides solutions to improve your bottom line.

Client Satisfaction & Return On Investment with Intangible benefits define the key areas of our focus. Let Serigor Consulting help you improve the productivity and value of your human capital.
